

**PLEASE HELP**

**PLEASE HELP SAVE LIVES**

"With that I have gone through in life, caring for five children in overcrowded conditions, regularly beaten by my husband, then depressed and twice tried to kill myself. My life was saved by Caring outreach, this happened to me in London. Thousands are dying in Africa, decades of war, tragedy of farming, disease, starvation, one child dies every few hours. I greatly need your help as an English lady for this project. No gift, donation is too small. £2 a month will help sponsor a child in Africa. Also tractors, vehicles, medical equipment, computers etc are needed. Send your gift to our address as below or call us to donate or on line. Thanks" – Sharon Graham

**IN AFRICA FOR OVER 6 YEARS – GABRIEL**

Dr.Gabriel went to Africa in 1996 from London to start project with the

Caring outreach in Nigeria, Ghana, Togo, Cotonou and had the opportunity to encourage our project in Ethiopia, Rwanda/Uganda, Kenya and south India.

We concentrate on , education, farming, digging wells to provide clean water, providing medical care, fighting HIV/Aids and drugs. In Nigeria, caring Outreach was the first charity that rehabilitates area boys/girls, drug addicts, out of street, drugs and crimes which they embarked on because of poverty. It started in west Africa's largest city, Ibadan and they were trained as drivers, barbers etc. Gabriel spent a short time in each country

executing projects, many lives were saved. Please be a volunteer and donor to this good cause for humanity sake. Please act now. Thanks

Part of our workers in Africa.
